

# Panasonic

ideas for life

Digital Disk Recorders  
**WJ-HD220 Series**  
WJ-HD220/32 (320GB HDD)  
WJ-HD220/16 (160GB HDD)

For up to eight cameras, with up to 320GB of storage, Ethernet compatible.

# A Wide Variety of Basic Features, Plus Smoother Control from Your PC.

High image quality with minimal degradation no matter how many times you record and play back. No need to change and store tapes, so costs are lower. Quick retrieval of exactly the scenes you want. Plus, full-featured surveillance capability. This advanced hard disk storage system makes recording simple, and easy.

## Recording

**Stores up to about three (3) years of continuous input from up to eight cameras** (NORMAL 720H x 286V Mode, Extended Recording Mode, 0.1 FPS)

The WJ-HD220/32 comes with a 320GB hard disk as standard equipment. That's enough storage for up to about three (3) years (1,080 days) of continuous image data input\* from eight cameras. Once installed, addressing is automatic.

No additional operations are required.

The WJ-HD220/16 comes with a 160GB hard disk as standard equipment, with the option of adding a second 160GB disk. \*See the DISK DATA REFERENCE CHART at the foot of this page.

### Twice as long in SIF Mode

The WJ-HD220 Series also support SIF (352H x 286V) Mode, which reduce image data volume by half, thus doubling the number of days / hours of data that the hard disk can store.

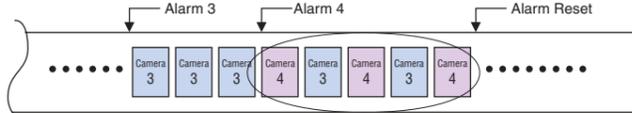

### Cache captures images before sensor signals movement

#### Pre-Alarm Screen

This feature allows you to view images from up to five seconds before alarm signals are received from external sensors or motion detectors.

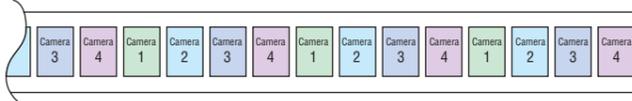

When multiple alarms are received, images from all alarmed cameras are captured.

### Time-lapse Images

This feature allows you to pre-set each camera to capture images at pre-determined intervals.

## Live Monitoring

### Coaxial cabling supports direct control of cameras

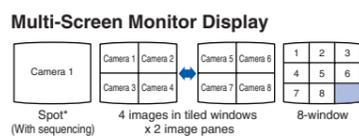

Connecting the WJ-HD220 Series directly to Panasonic PTZ cameras through channels 1 to 4 allows direct control of cameras with the System Controllers WV-CU650 or WV-CU360CJ (optional).

### Choose Multi-screen or Spot Monitor / or Both

On the back of the WJ-HD220 Series you will find two monitor output connectors, one for a Spot Monitor and one for a Multi-screen Monitor.

The Multi-Screen Monitor allows you to view images from several cameras at once.

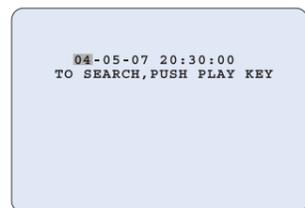

\*Independent Spot and Multi Monitor outputs allow monitoring of images from individual cameras.

## Search & Playback

### Instantly retrieve the scenes you want to see

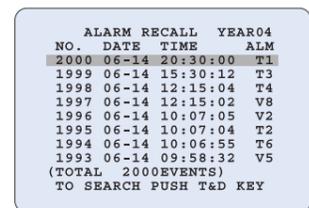

#### Direct (Time & Date) Search

Enter year, month, day and time. The system plays back the closest image to the date and time you specify.

#### List Search

Display list of times when alarm signal was received. Just click on the one you want to playback.

### Easy back-up with a VTR

The front panel is equipped with a video output connector. To copy images stored in the WJ-HD220 Series, hook up a VTR, video camera or printer.

## Network

The WJ-HD220 Series are equipped with a 10Base-T/100Base-TX interface as standard equipment, allowing remote control from a Microsoft® Internet Explorer browser via the Internet, an LAN or WAN.

### Standard Network Features

- Live Monitoring
- Recording
- Playback recorded image
- Camera Control
- Time & Date / List Search
- Image storage on a PC
- Alarm notification
- Setup

### Embedded date and time stamp display

Embedding the date and time in the JPEG image enhances reliability. When used as evidence, it strengthens criminal cases.

### Setup is Simple

Just click on the setup menu button and the menu opens. The menu makes it easy to select the WJ-HD220 Series and network settings you need.

### Alarm List Search Feature

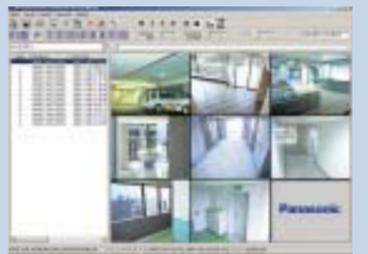

Use date, time and camera channel to quickly search a list of up to 9,999 alarms.

### FTP Viewer Software WV-AS20 (optional)

Installation of the optional WV-AS20 software allows you to download image data stored in the WJ-HD220 Series.

- Up to 10 WJ-HD220 Series Digital Disk Recorders can be registered.
- Images can be automatically downloaded at pre-set times.
- The zoom feature enlarges images up to 5x.

## Loaded with Handy Surveillance Features

### Multi-language Capability

The OSD Setup, installation menus and HTML can be displayed in seven languages: English, German, French, Italian, Spanish, Russian\*, and Chinese\*. \*Russian and Chinese in HTML only

### Simultaneous Recording, Playback, Live or Network

Recording continues during playback, live monitoring, and network operations.

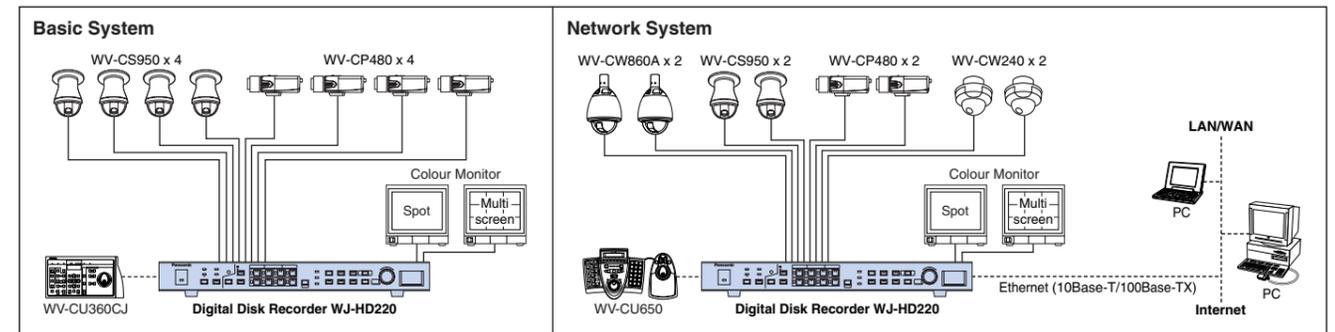

### Electronic Zoom

Both played back and live images can be zoomed 2x or 4x\* to examine details. \*2x only in SIF Mode

### Motion Detector Feature

Sensor detects movement in the area under surveillance and automatically displays the scene.

## SYSTEM EXAMPLES

All photographs and menus are simulated and shown for the purpose of explanation. Actual images may differ.

## SPECIFICATIONS PAL

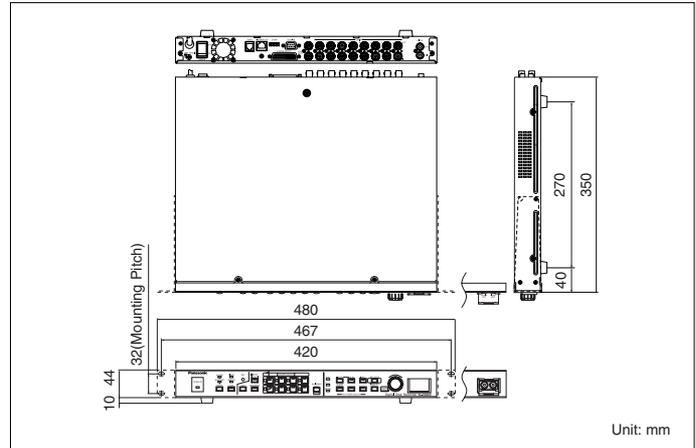

<b>General</b>	
Power Source Required	220 V - 240 V AC, 50 Hz
Power Consumption	45 W
Ambient Operating Temperature	+5 °C - +45 °C
Ambient Operating Humidity	Less than 85 %
Dimensions	420 mm (W) x 44 mm (H) x 350 mm (D)
Weight	5.2 kg
<b>Input</b>	
Video Input	1.0 V(p-p)/75 Ω Composite video signal with 75 Ω Automatic Termination / Looping through (x8)
Audio Input	-10 dB 10 kΩ unbalanced, RCA standard jack
<b>Image Process</b>	
Compression System	JPEG
Pixel Rate	Normal; 720H x 286V (Effective pixels 656H x 272V) SIF; 352H x 286V
Refresh Rate	25 FPS maximum
<b>Output</b>	
Video Output	1.0 V(p-p)/75 Ω Composite video signal/Looping through (x8)
Video Output Front Panel	1.0 V(p-p)/75 Ω Composite video signal (x1)
Audio Output	-10 dB 600 Ω unbalanced, RCA standard jack (x1)
Audio Output Front Panel	-10 dB 600 Ω unbalanced, RCA standard jack (x1)
Spot Monitor Output	1.0 V(p-p)/75 Ω Composite video signal (x1)
Multiscreen Monitor Output	1.0 V(p-p)/75 Ω Composite video signal (x1)
<b>Control Port</b>	
Alarm/Remote Port	25-pin Full Pitch D-sub connector (x1) Alarm Input 1-8, Alarm Reset Input, EXT REC Input, Time Adjust Input, Sequence Input: Low-active, Non-voltage N.O. Contact, ≥100 ms Alarm Recovery Output 1, Disk End Status Output, Time Adjust Output, Warning Output, REC Status Output, Sequence Output: Low-active, Open-collector, 24 V DC 100 mA max. Alarm Output 1, Play Status Output: Low-active, Open-collector, 12 V DC 100 mA max. Alarm Output 2: High-active, 12 V 4.7 kΩ Alarm Recovery Output 2: High-active, 12 V DC 220 Ω
RS-485 (PS • Data)	6-conductor modular jack (RJ-11)
RS-232C	9-pin D-sub connector
10/100BASE-TX Port	10Base-T and 100Base-TX, 8-conductor modular jack (RJ-45) Protocol Installed: TCP/IP, HTTP, FTP, SMTP, SNMP, DNS, DDNS Security: Password-protected
<b>Hard Disk Drive</b>	
Built-in	320GB (160GB x 2), or 160GB x 1
